Art Unit: 1615

Receipt is acknowledged of the amendment filed 02/16/2008.

The rejections under 35 USC 103(a) and obviousness-type double patenting are withdrawn in view of applicant's response and remarks.

The following rejections are cited in response to supplemental review before allowance:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 60-63, 66, 67-69, 73-83, 85-90 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite in that while they set out the potential monomeric units which make up the claimed polymeric coating, the actual polymer is never set out. It is therefore suggested that a generic formula, such as those set out at of page 11 of the specification be set out in the independent claims,

Incorporation of the above formula will place the application in condition for allowance.
